

MOU Performance

SJVN also entered the august club of selected Central Public Sector Undertakings (CPSUs) with the signing of first Memorandum of Understanding (MOU) first time for the year 2004 - 05, with the Ministry of Power, Govt. of India. Thereafter the MOUs for the subsequent years have also been signed, wherein various targets have been set out for achievement during the year.

The performance of the SJVN against the MOU signed with the Ministry of Power, Govt. of India during last three years has been rated as hereunder:

S. No.	Year	Rating
1	2004-05	Very Good
2	2005-06	Excellent
3	2006-07	Very Good

SJVN has been awarded scope MOU Excellence Certificate in March, 2007 for its exemplary performance.

SJVN on a lower Carbon Emission Path

Presently the execution of 412 MW Rampur HE Project is in full swing, the project will contribute to the Development of Power Sector in India and shall improve the reliability of India's Northern Electricity Grid through the addition of renewal and low carbon energy.

The project shall also help to put the country on a lower carbon emission path rather than continue under a "Business - as - usual" scenario. The efficient and timely construction of Rampur HE Project incorporating good global practices will enhance the image of Hydro Power as a clean predictable and cost effective alternative to Coal or Oil fired Thermal Plants which add to the country's green house gas emission. The corporation proposes to develop Rampur HE Project as CDM Project for obtaining Carbon Finance, the preliminary estimates shows that the execution of this Project shall result into Emission Reductions (ERs) of 1.4 Millions per annum.

The Rampur HE Project shall generate 1770 Million Units of Electric Power per annum out of which 12% shall be given to Govt. of Himachal Pradesh as free power.

SJVN concern for HRD, Environment and Relief & Rehabilitation

Empowerment of manpower skills through training receives utmost importance every time. The company has well established strategy for imparting training to the employees. Training imparted is two dimensional i.e., in-house training and through external professional institutional as well. The company also facilitates the professional candidates of various institutions for undergoing vocational training in the organization.

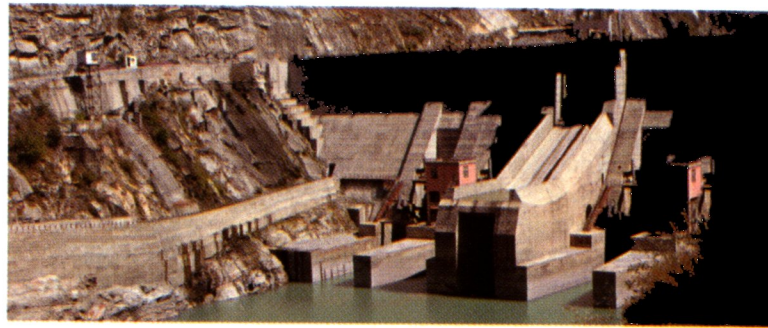

SJVN has been fully aware of the importance of both environmental, resettlement & rehabilitation issues. SJVN has adopted an environment, resettlement & rehabilitation policy which reiterates company's commitment to sustainable development which is within the carrying capacity of the ecosystem and which also promotes the improvement of the quality of life.

For its outstanding contribution to environment protection SJVN has been awarded with Green Tech Award and Golden Peacock Eco Innovation Awards etc.

Initiatives are taken to undertake steps for mitigation of the grievances of the project affected persons with the involvement of State Governments and to put into effect the approved remedial action plan and also for infrastructure development in the project areas.

As a result of vigorous pursuit for ensuring a fair Rehabilitation and Resettlement of the Project Affected Families, the World bank has lauded the above efforts as under :

'The success of the resettlement activity undertaken in this project is quite rare for india, and can be considered as one of the best examples of resettlement implementation in bank assisted projects in india. It should be considered as an example for other projects.'

Concern for Quality

Satluj Jal Vidyut Nigam Limited (SJVN) joined the august club of ISO 9001 : 2000 certified organizations in Power Sector in the country, w.e.f. February 02, 2005. The Company has achieved the distinction of having been awarded the prestigious ISO 9001 : 2000 certification from DET NORSKE VERITAS AS (DNV), one of the world's most reputed certification body, in recognition of its note worthy efforts for well maintained Quality Management Systems. Norway based DET NORSKE VERITAS AS (DNV) has been accredited by the national Accreditation Board for Certification Bodies (NABCB), India, for award of such certification in Power Sector and is accredited by maximum number of countries in the world.

Commitment to Quality has been the foremost priority of SJVN since its inception. Sustained and dedicated efforts by SJVN has resulted in achieving the ISO 9001 : 2000 certification, one month ahead of target committed under MOU 2004 - 05 signed with the Ministry of Power, Govt. of India.

SJVN has also been declared an ISO 14001 : 2004 company on July 28, 2006, for environmental management systems of its Nathpa Jhakri Hydro Power Station, which is one of the most environment friendly hydro power projects in the world.

Working of Organization

The present authorized share capital of SJVN is Rs. 4500 crores. SJVN is a fine example of the Corporate Culture and is governed by the Board of Directors and headed by Sh. H. K. Sharma, Chairman cum Managing Director (CMD). The Board of Directors of SJVN consist of full time Directors, part time Directors nominated by Govt. of India and Govt. of Himachal Pradesh. As a step forward towards effective corporate governance, the Audit Committee has also been constituted in SJVN, with Joint Secretary & Financial Advisor, MOP, GOI, Director (Electrical) SJVN and Principal Secretary (Finance), GOHP, as members of the Audit Committee.

In pursuance to the vision and mission and corporate objectives, SJVN has committed itself to add generating capacity within prescribed time and cost, to expand consultancy operations and to diversify into power related business to ensure integrated development of the energy sector in India and to achieve continuous performance improvement in the areas of project implementation, plant operation and maintenance, generation efficiency etc. and to acquire and sustain internationally comparable standards in these areas with good business ethics and values.

SJVN has fast developed into an organization with ample expertise to execute mega power projects and is also imparting consultancy services in the areas of underground projects execution, for this purpose a Consultancy Division has been established.

SJVN is participating in framing national policies relating to power by presenting its views on various aspects of hydro power and speeding its process of exploitation to meet the needs of growing needs. It is a matter of proud for SJVN that its the visionary ideas are being incorporated in different policy documents of Ministry of Power, GOI.

With its capabilities and expertise gained in construction and commissioning of Nathpa Jhakri HE Project, SJVN is fully equipped to take up execution of any Hydro Electric Project in the country.

To sum it up, SJVN is envisioned as a forward looking organization.
