"The New Mating Game",  
March 24, 2008

**"Marriages through the Internet have come to resemble a rapid chess tournament. They are just about click, check and mate."**

GAGAN SHARGA, on e-mail

## Net and Wed

The holy institution of marriage is a communion of two souls and no technology can bring two souls together forever ("Netrimony", March 24). Nothing can match a traditional arranged Hindu marriage, which has not only strong foundations but deep-rooted social acceptance and sanctity too.

VIJAY DANDIWALA, on e-mail

What is remarkable about this nouveau trend of looking for a mate online amongst the urban youth of India is that it does away with the deplorable dowry system and therefore, mirrors a fast evolving, progressive society.

NALINI VIJAYARAGHAVAN,  
Thiruvananthapuram

After reading the story, all one can say is that we are on the threshold of producing e-babies now.

RAJNEESH BATRA, Delhi

There is no human touch involved in an online relationship that culminates into marriage. It is nothing but electronic love and I doubt whether such marriages last for long.

A. SRIKANTIAH, Bangalore

Though the risk factor involved in the online mating game is at par with that in arranged marriages, the failure rate should be comparatively less considering the fact that the sole responsibility of a marriage not lasting lies with the couple.

J.V. SUDARSHAN, Jaipur

The story has brought into focus a new order of matrimony emerging in the country. This has only widened the scope of selection of partners. The magazine has done a great job by highlighting the dos and don'ts of Net etiquette.

A. JACOB SAHAYAM,  
Thiruvananthapuram

Marriages culminating out of matrimonial sites transcend the barriers of caste, creed, horoscopes, religion and region. But for the Internet, this social revolution in a very traditional Indian set-up would have been simply impossible.

## Political Memoirs

The critique of L.K. Advani's autobiography *My Country, My Life* leaves one with an uncomfortable feeling that perhaps the country's intelligentsia has demonised a giant statesman ("Testament of an Unrepentant Nationalist", March 24). Advani comes out as a man who knows where he's going and where he would like to take the nation.

HARRY RAKHRAJ, Delhi

Advani proudly recalls the two interventions that

saved some innocent lives in the Gujarat riots. But what about the others who were massacred mercilessly at the state government's behest with the Centre's connivance?

RAJNISH MASSEY, Ajmer

Excerpts from Advani's autobiography made for an interesting reading. Though he lauds former prime minister P.V. Narasimha Rao for his courage in trying and affecting a paradigm shift in the country's economic policy, he should know that Rao did not have a choice. Fortunately or unfortunately, it is only in such difficult situations that politicians cooperate.

K.U. MADA, Mumbai

The enigma of Advani has two conflicting sides: that of a learned, visionary and upright leader on one hand and an earthy opportunist on the other.
