

# EM- POWERING INDIA

NTPC Limited, the largest power generation company of India with 29,144 MW installed capacity, targets to become 50,000 MW company by 2012 and 75,000 MW plus company by 2017.

## ➤ LIGHTING EVERY FOURTH HOME

It is apt to say that every fourth home in India is lighted by NTPC considering the company contributed 28.6 per cent of the total electricity generated in the country during 2006-07 with 19.9 per cent share of the total installed capacity of the nation.

NTPC's core business is engineering, construction and operation of power generating plants. The company provides consultancy in the area of power plant construction and power generation to companies in India and abroad.

NTPC is also associated with electrification of about 40,000 villages in six states under the Union Government's Rajiv Gandhi Gramin Vidyutikaran Yojana. A large number of villages have been already electrified and electrification work is in progress in more than 9000 villages.

**NTPC's vision** - To become a world-class integrated power major, powering India's growth with increasing global presence.

**NTPC's mission** - To develop and provide reliable power-related products and services at competitive prices, integrating multiple energy sources with innovative and eco-friendly technologies and contributing to the society.

## ➤ MARKET LEADER AND A GLOBAL PERFORMER

- The Forbes magazine declared NTPC, the 494th largest company in the world for the year 2006.
- Datamonitor of UK ranked NTPC as the 4th largest power-generating company in Asia in terms of physical units sold.

NTPC Limited has been the catalyst of change, setting new benchmarks in the sector and has grown to become the largest power generating company in India, since its incorporation on Nov. 7, 1975. From a generating company, which was NTPC's mandate in 1975, the company is becoming an integrated power major with presence in Hydro Power, Coal Mining, Power Distribution, Power Trading, Power Equipment Manufacturing and EPC. NTPC has plans for presence in renewable energy and nuclear power.

- USA's Platts magazine has ranked NTPC as the number one Independent Power Producer in Asia.
- NTPC won the prestigious International Project Management award in 2005 from IPMA for implementation of Simhadri project. NTPC is the first Asian company to win this honour.

**A Jewel among the Public Sector Enterprises (Navratna):** Recognising its excellent performance and vast potential, the Government of India has identified NTPC as one of the jewels (Navratnas) of Public Sector - a potential global giant.

## ➤ AN INTEGRATED POWER MAJOR

- NTPC has commenced work on a diversified portfolio with initiatives for
