lateral, forward and backward integration. Much to the pride of India, today, this premier public sector enterprise boasts of having an installed capacity of 29,144 MW through 26 power stations.

- **NTPC is working on implementation of 15,610 MW capacity as on date.**

- Setting up Hydro capacity of 2010 MW.

FINANCIAL PERFORMANCE

- NTPC posted robust financial result and achieved all time high physical performance levels in fiscal 2006-07. The top line of the company (gross revenue) for the year was Rs. 35376 crore. The bottom line (net profit after tax) rose to Rs. 6864 crore. The cash flow of the company continued to be strong with 100% realization for the fourth consecutive year.

ENHANCING SHARE HOLDER VALUE

NTPC is now the third largest company in the country with a market capital of around Rs 180,000 crore. NTPC paid dividend of 32% for the year 2006-07. The company enjoys high investor confidence.

BUILDING PARTNERSHIP WITH STATES

NTPC is being considered as a preferred partner by many states for their power capacity addition programmes. The company has already signed JVs with Governments of Haryana-1500MW Jhajjar project, Tamil Nadu- 1500 MW Vallur project, Bihar- 1320 MW New Nabinagar project and Uttar Pradesh-1320 MW Meja project.

PROPELLING ITS DIVERSIFICATION PLANS

- For ensuring adequate supply of coal of the right quality at right price, NTPC has diversified into coal mining.
- NTPC has been allotted 8 coal blocks by Government of India. These blocks are expected to produce about 47 million tones of coal per annum by 2017
- NTPC has signed a Memorandum of Understanding (MoU) with CIL and

ALL SET FOR DELHI COMMONWEALTH GAMES
NTPC is gearing up to meet the power requirements during 2010 Commonwealth Games through its Dadri (980 MW) & Jhajjar (1500 MW) projects.

SCCL for formation of joint venture to undertake development, operation and maintenance of coal blocks and integrated coal-based power plants.

- It has also signed an MoU with BEML for joint business development in the field of contract coal mining
- Signed a business collaboration and shareholders agreement with Transformers and Electricals Kerala Ltd (TELK) and Government of Kerala for synergy in the field of manufacturing and repair of power transformers, circuit breakers etc..
- JV Agreement with BHEL to engage in manufacturing and supply of equipment for power plants and other infrastructure projects in India and Abroad.
- Signed an MoU with Bharat Forge Limited (BFL), a leading global supplier of forged and machined- components, to set up a Joint Venture Company (JVC) for manufacture of castings, forgings, fittings and high pressure pipings required for power and other industries and Balance of Plant (BOP) equipment for power plants etc. and also diversify into equipment manufacturing.
- Consortium comprising of NTPC, Canoro and Geopetrol has been allotted an oil block in Arunachal Pradesh under NELP-V.

GLOBALISATION INITIATIVES

- The company has signed an MoA for setting up 500 MW coal based power plant in Sri Lanka.
- The company has signed a Memorandum of Understanding (MoU) with Nigeria for supply of LNG, and in turn, NTPC shall set up and operate 500 MW coal based and 700 MW gas based power plant in Nigeria.

PRESERVING NATURE...

- Committed to the environment, generating power at minimal environmental cost and preserving the ecology in the vicinity of plants, NTPC has undertaken massive afforestation thereby increasing forest area and reducing barren land. Studies conducted through National Remote Sensing Agency, Hyderabad at Ramagundam, Farakka, Korba, Vindhayachal, Rihand and Singrauli reveal significant environmental gains in the vicinity areas as a result of sound environmental practices.

The Centre for Power Efficiency and Environment Protection (CENPEEP) has been established in NTPC with the assistance of the United States Agency for International Development (USAID). Cenpeep is efficiency-oriented, eco-friendly and eco-nurturing initiative - a symbol of NTPC's concern towards environmental protection and continued commitment to sustainable power development in India.

- **Utilising Ash:** NTPC extensively promotes use of Fly Ash in the country.
