## Powering the new India

Dr. R.P. Singh  
CMD

**P**ower Grid Corporation of India Limited (POWERGRID), the Central Transmission Utility of India, was established in 1989 with the mission of "Establishment and Operation of Regional and National Power Grids to facilitate transfer of electric power within and across the regions with Reliability, Security and Economy, on sound commercial principles".

POWERGRID, at present, is operating about 65,600 ckt km of transmission lines, 110 Sub-stations and transformation capacity of about 68,000 MVA, maintaining system availability of more than 99%. POWERGRID has also established a Telecom Network of more than 19,500 Km connecting more than 60 cities of India and providing value added services to various customers.
