

"2.4 TIMES MORE PRINTS PER CARTRIDGE*.
I ENSURE EVERY ASPECT OF MY BUSINESS
IS JUST AS EFFICIENT."

- Mr. T.R. Badarinarayan, President, Potain India Pvt. Ltd., Pune.

Independent testing by a 3rd party confirms that an HP Original Cartridge delivers 2.4 times* more printouts than an unorganised refilled cartridge. In addition, unorganised refilled cartridges may create problems for the printer leading to higher maintenance costs, or even more likely, printer damage. Remember, only an HP Original Cartridge gives you assured value, quality and reliability.
