

Shri. M.V. Muthuramalingam, the Chairman of the Velammal Educational Trust, established The Velammal Group of Educational Institutions, inspired by his mother, Smt. Velammal, whose simple yet profound philosophy left a deep and lasting impression in his mind. This idea of giving back to society has created a global educational enterprise that includes Matriculation Higher Secondary Schools, International Schools, CBSE School, Engineering Colleges and Technology and Management Institutes in the state of Tamil Nadu.

Smt. Velammal

Inspired to teach, Motivated to Learn - The Velammal Group

The seed was sown in the year 1986, with Velammal Matriculation School at Mugappair East, Chennai. The school had 183 students and 13 teachers.

It has now spread like the Banyan tree and thousands of students leave the portals every year to pursue successful careers.

Velammal Vision:

To uphold the social values while helping the society to develop technologically and morally by providing education of global standards, thus bringing about emancipation in the society through knowledge and wisdom.

Dedication, Determination and Distinction are the motivating words that stimulate and spur Velammalians into action. From a humble beginning in the year 1986, to over 40,000 students pursuing education today in different institutions of Velammal, the

growth has been stupendous. As the strength grew, so did its reputation. The journey has been quite eventful. Velammal aims to attain the status of a University by the year 2009. The teachers and the supporting staff are selected very carefully. They form the bridge between the parents and the institution, upholding the Trust's belief of ethical practices. The teachers and the management impress upon the young minds the importance of the development of the society and how the individual's growth is linked with it. To demonstrate the same, Velammal Educational Trust helps students from rural areas academically, builds old age homes, community halls; offers scholarships to outstanding students and sponsors free education and accommodation to economically weak students. Velammal Educational Trust has also opened a hospital at Ladenendal in Sivagangai district for the same reason. The Trust follows the words of wisdom uttered by Swami Vivekananda, who said, "The end of all training is to make the man grow."

"Today, my vision is set on spreading the good deed to other cities by establishing more Schools, Engineering Colleges, Medical Colleges and other Professional Colleges. The task is arduous but I have two things going for me; my mother's words of motivation and the unstinting support of the society."

M.V. Muthuramalingam
Chairman,
Velammal Educational Trust.
