The Velammal Schools

Velammal Matriculation & Higher Secondary Schools: The Velammal educational institutions endeavour to impart education in a different way because they believe that the current educational system does not cater to the learning needs of the student. They practice the kindergarten form of education, which uses creative play and social interaction to teach children skills like reading, writing and comprehension. The students' everyday activities are monitored to discover hidden talents. The teachers are trained in the latest teaching methods and the Velammal philosophy before they start teaching. At Velammal, they believe that learning should be fun so they use visual and audiovisual learning aids like models, charts and video clips. Combine all this with a healthy teacher-student ratio, and this makes the Velammal Matriculation,

Higher Secondary and International Schools ideal places for students to take their first steps into becoming complete individuals. The Velammal Schools are gradually spreading all over the state of Tamil Nadu offering the same quality and standard education that is aimed at shaping the students into truly global citizens with traditional Indian Values.

Velammal Residential Schools: Velammal Residential School established in Madurai is designed to have the most modern facilities and the latest teaching

aids. Set in a sprawling 10 acres of land in sylvan settings, the premises has separate academic and residential blocks at a reasonable distance apart from each other. Children here learn not at the cost of their childhood but while making the best of it. The endeavour is to offer a burden free education and overall development of the individual.

Velammal Vidyalaya (CBSE): Aynambakkam, Chennai is an aesthetical designed and well planned structure that offers education following the CBSE pattern. The infrastructure and ambience here stimulates leadership qualities in the children and shapes them into individuals with integrity and discipline.

Other Activities

Velammal encourages students to use their creativity and imagination both inside and outside classes. Debates and dramatics are organized regularly. English language certification programmes like IELTS are offered in the campus by a team from the British Council. Students are encouraged to pursue games like cricket, football, basketball and tennis. Emphasis is laid on keeping the environment eco-friendly by planting trees in the campus and surrounding areas.
