

Gen. N.C.VII (Retd.)

We aim to build a safer and disaster resilient India by developing a holistic, proactive, multi-disaster and technology driven strategy for disaster management.

It may sound easy but the road is long and challenges are many, but now that the journey has begun and the direction defined, we should start moving steadily on this path, of course with the unstinted support of all concerned including the Govt, centre and the states, other stakeholders and the community at large.
