

Which industry would you like to work in?

Become the centre of attention of prospective employers across industries, right after college. With the industry-endorsed GNIIT Program from NIIT. Just like over 36,000 GNIIT-ians have, who were placed in leading companies (including 18 of the Top 20 IT companies) in the last three years. If you've completed Class 12 or are in college, make sure you pursue this 3-year program along with college. And get ready for others to pursue you.

The GNIIT Advantage

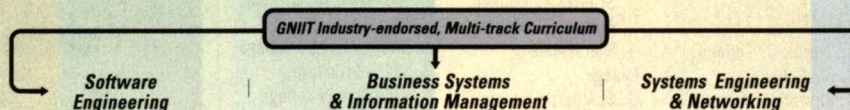

Industry-endorsed, multiple tracks: GNIIT's curriculum is customized to match the industry's requirements. Further, our partnership with academia and IT majors like Intel, Microsoft, Oracle and Sun Microsystems ensures that your IT skills will be at par with, or superior to, peers in professional IT programs.

Global Technology Certifications: With your graduation degree and GNIIT, you'll get global technology certifications to grab the best career opportunities around the world.

Professional Practice™: GNIIT also includes one year of work experience at leading IT organizations, where you can earn-while-you-learn.

Industry Collaboration: With GNIIT's focus on your overall development, you can count on our Placement Partnerships with India's top companies to get the job you've always dreamt of.

Merit Scholarships: To fuel your ambitions, scholarships will be awarded by NIIT on the basis of your Class 12 results*.

Admissions Open
