City-level ranking of a college is determined by its scores in the Top 50 national ranking. For these city colleges that do not figure in the toppers' list, only perceptual scores were considered for the above ranking.

HIGH FLIERS: Science students of Loyola, Chennai, do it proud

by the Department of Information and Technology for this purpose.

Thanks to the effort, the Chennai Corporation could control the spread of cholera and other communicable diseases in the city. "We tracked the vulnerable areas by using disease maps from the Health Department, revenue maps of water drainages and data provided through GPS imagery," explains Dr Vincent, who has been appointed member secretary of the Tamil Nadu State

Council for Science and Technology by the Tamil Nadu Government.

Research in new areas promises students of Loyola ample exposure. In what is an enterprising venture, the zoology department, along with other departments like economics, social work and commerce, has been working to save the shrinking Pulicat Lake, containing 56 islands on the Tamil Nadu-Andhra Pradesh border and to safeguard the livelihood of nearly one lakh people who are dependent on the lake. Similarly, research prospects to protect the coastal eco-system have

made the science department of Loyola a very happening laboratory.

Another initiative of Loyola which deserves mention is the National Centre on Academic Access and Excellence. Its objective is to make higher education accessible to all while retaining its standards at the highest level, says Bernard D-Sami, coordinator, internal quality assurance cell of Loyola College. "Only 8 per cent in the college-going age group are now in higher education. The Knowledge Commission has a target of 15 per cent. We have to open the doors of higher education to all." Significantly,
