

INSTITUTE OF CLINICAL RESEARCH (INDIA)

Certified ISO 9001:2000
Promoting Ethical Research

Taking India to the pinnacle of Clinical Research.

Institute of Clinical Research-India:

Institute of Clinical Research (India) - ICRI, founded in 2004, is India's first and the world's largest institute of Clinical Research. It promotes ethical research & high quality Clinical Research education. 2500 students have passed out from ICRI and over 2000 students are undergoing various courses across Delhi, Mumbai, Bangalore and Ahmedabad campuses of ICRI.

As pioneers of Clinical Research studies in India, ICRI has kept pace with global advances in the field.

Education Programmes:

Educational Programs offered currently at ICRI

- M.Sc. in Clinical Research (Awarded by Cranfield University, UK) • Post Graduate Diploma in Clinical Research, Advanced Clinical Research, Clinical Data Management, Clinical Research with specialization in Quality Assurance and Audit, Clinical Research with specialization in Business Development, Pharmacovigilance, Clinical Trial Management, Regulatory Affairs • Post Graduate Certificate in Clinical Research for Nurses • Certificate in Clinical Research for Nurses.

Programmes to be launched in 2008

- M.Sc. in Translational Medicine • M.Sc. in Molecular Medicine • M.Sc. in Pharmacovigilance.

ICRI has 45 full-time eminent permanent faculty & over 100 visiting faculty from both the industry and academia. ICRI faculty members are encouraged to present research papers in various international forums and to attend and participate in important seminar and workshops worldwide.

Global Tie ups:

To prepare students for the global Clinical Research industry, ICRI has tied up with globally acclaimed bodies like ICR, UK, Cranfield University, UK, Drug Information Association (DIA) and Centerwatch, USA.

Future Plans:

In future, ICRI plans to come up with campuses in Cochin, Hyderabad and Dehradun and with global campuses in UK, US, China, Sri Lanka, Dubai and Singapore.

Placement:

ICRI is proud to achieve 100% placement for its first batch in multinational companies like Johnson & Johnson, TCS, Quintiles, Ranbaxy, GSK, GVK, Novartis, PRA International etc.

Infrastructure:

ICRI provides students with state-of-the-art infrastructural amenities & modern avenues across all the campuses. Access to institute computers & internet facilities is provided, enabling data searches & computer aided decision making. ICRI is the only institute in the country with single largest Clinical Research library, Oracle Clinical & SAS. Also, ICRI is the only institute in India to offer Blackboard (Virtual Learning Environment), a revolutionary teaching methodology.

Staffing:

ICRI's staffing division (ICRISD) offers contract outsourcing & staffing specifically to pharmaceutical, biotechnology & medical device industries, specializing in recruitment of clinical trial personnel & scientific / laboratory personnel. ICRI helps you get professionals at all positions across all levels & functions.

ICRI Independent Ethics Committee - Bangalore (IIEC-B):

IIEC-B essentially targets patients care and ethical aspects of research and education. Members include Clinicians, Biostatistician, Lawyer, Pharmacologist, Social Worker & Physician.

Consultancy:

ICRI offers advice to the industry on

- Onsite Audits & inspections • Medical / Scientific writing • Designing SOPs / Clinical Trial Design / Protocol Design • Regulatory requirement • Phase I, II & III studies • Independent ethics committee • Feasibility Studies.

Publications:

ICRI's publication division started in 2005 & already has established its prominence. With highly specialized task force, knowledge & expertise, ICRI has succeeded in making its publications a prominent name. India's first book on clinical research "Basic Principles of Clinical Research & Methodology" was released by ICRI. On behalf of Centerwatch, USA, ICRI has published 6 titles in India for students & professionals.

Corporate Training:

ICRI conducts customized training programs as per requirements of a company or choices can be made in specific key areas in which company requires training. The training sessions can be conducted at the company itself, which covers whole spectra of issues critical to successful operations within biopharmaceutical & clinical trial industry. The trainers are distinguished academicians as well as renowned people from pharmaceutical industry with extensive experience, offering corporate solutions from start to finish.

Conferences:

National Conferences

ICRI First Annual Conference (2004)

Topic: "Clinical Research: Challenges & Opportunities in India"

Venue: Indian National Science Academy, New Delhi

The conference was inaugurated by Dr. Ambumani Ramadoss, Union Minister of Health and Family Welfare

ICRI Second Annual Conference (2005)

Topic: "India's emergence as hub for Clinical Research"

ICRI Third Annual Conference (2007)

Topic: "Clinical Research and Development"

Venue: National Institute for Advanced Studies, IISC Auditorium, Bangalore

ICRI Fourth Annual Conference (2008)

Sponsors - Indian Council for Medical Research, Govt. of India

International Conferences

ICRI First International Conference (2006)

Topic: "Clinical Research: Challenges & Opportunities in India"

Second International Conference (November 2007)

Jointly organized by ICRI, Drug Information Association (USA) & Biomedical Consulting International Inc.

ICRI Health

Considering the potential that Indian Healthcare industry has to offer and to meet the growing demand of trained healthcare professionals, ICRI has introduced a specialized division - ICRI Health. ICRI Health offers Masters in Hospital Operations Management and Masters in Medical Tourism.
