

"Terror Attacks: Why Can't They Be Stopped?", May 26, 2008

"Even as militants add indigenous recruits and target new places at will, political parties are dissipating their energies blaming one another."

Y.G. CHOUKSEY, *Pune*

Jaipur, A Wake-up Call

We haven't learnt our lesson from the 1993 Mumbai blasts ("How We Can Stop It", May 26). Every Muslim is not a terrorist, but terrorists are invariably Muslims. Let us shed our pseudo-secularism and call a spade a spade.

RATAN SHARGA, *on e-mail*

While politicians are careful about their own security, the people have to bear the brunt of the Government's lackadaisical policy towards terrorism. In the months following a blast, when peace seems to be returning, our anti-terror offensive slackens.

RANJAI SINGH RATHORE, *Jaipur*

Terrorists do not care either for their own lives or those of others. Anti-terror laws like POTA cannot deter them. The only way out is to beef up intelligence as well as security checks.

D.B.N. MURTHY, *Bangalore*

A list of the victims of the Jaipur blasts should have been published to apprise neo-secularists of the immense harm they are causing by not permitting the government to introduce stronger measures against terrorism.

B.H. AGARWAL, *Bhopal*

Your cover story has hit the nail on the head.

Governance in India is totally vote-centric and least suited for providing protection, dignity and security to the people.

I.J. RATANJI, *on e-mail*

"Terrorism has no religion" is a hackneyed refrain. The prime minister, while condemning the blasts, could just as well have added that a few people being killed does not mean it is the end of the world.

SOM SHARMA, *Gurgaon*

Local intelligence and policing have to be improved to keep a watch

on terrorist activity, especially that of sleeper cells. CCTV cameras are a must in crowded public places.

LATA RAGHAVAN, *Delhi*

We can tackle terror if we have a strong home minister, stop votebank politics and ruthlessly deport illegal immigrants.

WISHVAS RANE, *Pune*

Terrorism can only be defeated by involving, sensitising and providing security to the people on whose behalf the terrorists claim to be acting and among whom they seek shelter as they plan and execute their attacks.

VITULL K. GUPTA, *Bhatinda*

Besides being a clarion call to the powers that be to pull up their socks and stem the now pan-Indian scourge of terrorism, INDIA TODAY's cover story has pinpointed the gaping lacunae in India's security system and offered feasible

solutions to make the nation a safer place to live in.

NALINI VIJAYARAGHAVAN, *Thiruvanthapuram*

The Loyalty Factor

Minister for Human Resource Development Arjun Singh found himself between the devil and the deep sea after his comments on the Congress ("The Long and Whining Road", May 26). But ever the wily politician, he wasted no time declaring that he would remain loyal to the family forever. However, such solemn promises are unlikely to earn him a reprieve.

S. BALAKRISHNAN, *Jamshedpur*

You have referred to the title of the book on Arjun Singh, *Mohi Kahan Vishram*, as "a couplet from *Hanuman Chalisa*". The line is actually from the first couplet of the *Sundarakanda* in Tulsidas' *Ramcharitmanas*.

V.B. LAL, *Delhi*
