

Getting to the top is hard work; staying there – and even improving on performance needs innovation and energy.

VIT has an abundance of that, as the latest India Today survey of India's Best Colleges shows. By bettering its key difference: ensuring that the foremost international talent frequents its campus, VIT has enhanced the quality of its teaching and facilities even further. Giving VIT the edge that helps bright students and their parents make the right choice in educational institutions.

Moving up into the coveted Top Ten bracket of India's Best Engineering Institutions, VIT continues to turn out the toppers and winners for today's world.
