LUMAX AUTOMOTIVE SYSTEMS LTD *On The Verge of BIG TIME EXPANSION*

Like the true winner who never rests on his past laurels alone, Lumax Automotive Systems Ltd. has slowly but steadily raised its own bar of excellence. Lumax was established in 1945, by Sri S.C Jain, initially as a trading concern. Within a few years it commenced manufacturing of automotive components. Ever since its inception, the company has seen stupendous response which comes from pursuing excellence in everything. In 1981 Lumax became a corporate identity, and thereafter a widely held public limited company in 1984. In the year 2003 company was de-merged to ensure more focus on their specified products and became "**Lumax Automotive Systems Limited**". Since then under the leadership of Mr. U.K. Jain and his sons Nitin Jain & Milan Jain it has become a well recognized brand name in the Indian Automotive Industry and known as a specialist in producing a wide

range of Automotive Rear View Mirrors, Automotive Filters, Plastic Injection & Blow Moulded and Sheet Metal Components and the OEM supplier to almost all auto major manufacturers in the country. With nine state-of-the-art manufacturing plants located all over India to manufacture high class automotive products, the company is claiming solely to produce both quality as well as quantity of products.

Lumax Automotive Systems Ltd. had recently organized its grand Lumax Annual Vendors' Meet 2008 at Tivoli Garden, New Delhi. A hugely successful Vendors' Meet was the platform wherein the manufacturers and top notch executives of the company discussed with and motivated the vendors and associates connected with Lumax Automotive Systems Limited. World class products from Maruti Suzuki's - SX4, Zen and advanced two wheelers from

Our future plans are very dynamic & we are targeting a turnover of 330 crores by year 2011, for which we plan to invest 20cr in 2008-09

—Nitin Jain, Executive Director,
Lumax Automotive Systems Ltd.
