We knew it had to happen. After doing half a dozen item number-sized roles in seriously forgettable films, **Celina Jaitley** has agreed to shimmy in her first 'official' item number in Balaji Telefilms' *C Kompany*. "We wanted someone hot and Celina fit the bill," says director Sachin Yardi, who's still not shot the song. Just one question though. If this is her first real item number, what was she doing in Sajid Khan's *Heyy Baby*? Special appearance?

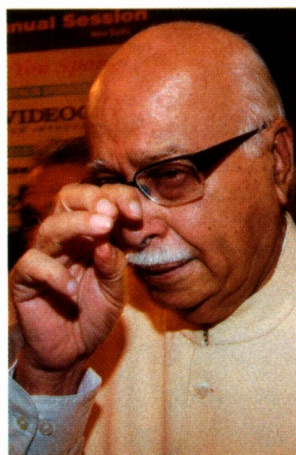

SHEKHAR GHOSH

Tears Again

The occasion was the AGM of business chamber Assocham and the 80-year-old BJP leader **Lal Krishna Advani** was giving a sterling address punched with just the right

brickbats for the Government and bouquets for the Karnataka win. Soon **Swati Piramal** (left), director, Strategic Alliances and Communications, Nicholas Piramal, came to deliver the vote of thanks and compared Advani to a legendary bird who, in the words of the poet Farid-ud-din Attar, guides other birds to Simorgh—the place of eternal happiness. Advani was soon found teary-eyed, much to the delight of the flashbulbs.

ALL SONG NO PLAY

Neha Dhupia seems to be doing everything but acting. After agreeing to host the AXN Action Awards, she has gotten jiggy with American R&B artiste Ginuwine in a music video for his song, *Baby*. "They wanted an Indian actress who defines a modern confident woman," says Dhupia who is the first Bollywood actor to feature in an international video. From desi items to international screen scorchers, maybe it's time she reworked her resume.

Centre Stage

She's married into the Morani family, famous for taking India abroad through their Bollywood shows. But this time the brothers are giving the country something new in their trademark dance-drama style. And **Nasreen Morani** is playing the lead in *City of Dreams*, a Broadway-style musical which raises its curtains on June 13. After three years of theatre training, Nasreen debuts as the lead character, Adaa, a talent-hunt winner from Lucknow. "It's about her struggle in Bollywood," she says. Item numbers, vamps and leery men pad up the play. Now where have we heard this before?
