

CREATING NEW WORLD IN GHAZIABAD

American author Orison Swett Marden had said, *"The creator has not given you a longing to do, that you have no ability to do."* The dynamic combination of longing to do something and the ability to do the same is what it takes to be a leader, a pioneer, an icon. The SVP group, which has been the pioneer in infrastructure development in Ghaziabad since 1992, is a 2000-crore real estate development company headquartered in Ghaziabad. The group is an ISO 14001-2002 certified company that is changing the face of Indian real estate with a unique approach to building and development.

Ghaziabad has grown and developed from being a tier II city to the status of the 'financial capital' of Uttar Pradesh and one of the prominent names in real estate sector in NCR region. So has grown the SVP Group, under the watchful eyes of Mr. V. K. Jindal, Chairman & Managing Director, SVP Group. The makeover of the city is the result of his constant effort, hard labour and a vision to outgrow and outserve in the sector.

The SVP group has been responsible for constantly changing the landscape of Ghaziabad. They have successfully completed 5 million square feet of construction in the form of malls and shopping arcades, premium residential projects and budget housing complexes.

Mr. Jindal's vision, goal and strategic growth plan of the organization has played a key role in carving a path to the organization's overall augmentation, and of Ghaziabad, in turn. The success of the group is a result of his conscientious decision to generate the best for the infrastructure development of Ghaziabad.

According to Mr. Jindal, "Ghaziabad as a city is growing very fast in terms of the real estate. The government bodies are also taking an active interest in developing Ghaziabad as a preferred residential destination in the NCR region. The infrastructure being provided is also turning the city into an investment destination within the country as well as for NRI communities. But there is a lot more to explore and develop. Real estate in Ghaziabad has still miles to go, unlike other regions of NCR, where there is a possibility of saturation hovering around."

SVP Group has always been amongst the first to initiate steps towards the infrastructure development of Ghaziabad and today SVP Group occupies a prestigious position among the top real estate development groups in the National Capital Region (NCR) region. It is the group's distinct philosophy, vision and core values that differentiate it from other development groups.

"We are committed to a fair and competitive marketplace, where all members have the opportunity to operate their businesses profitably. We believe that skills, experience and integrity are the cornerstones of professionalism. We also believe that all NCR people should have the right to a reasonable opportunity to own their homes. At the same time, they should have access to the best of entertainment, education and leisure options", said Mr. Jindal.

Focused on re-defining quality in living standards and lifestyles, the company combines state-of-the-art technology with research, expertise and experience to provide the best the world has to offer to both the residential and retail sector.

This is reflected in its exhaustive list of impressive projects completed and in progress.

Over 200 budget dwellings spread

across Doodheshwar Apartments, Krishna Apartments, Krishna Residency, Krishna Enclave, 1200 middle income group homes across Park View Apartments, Krishna Vihar, Krishna Kunj and Shopper's Square project at Raj Nagar and over 1500 luxury homes across the Gulmohur line of properties.

Among its major ongoing projects in the commercial sector is the stylish Opulent mall, the shoppers hotspot, Gateway Mall and in the institutional sector, the sprawling Vishveshwarya Group of Institutes for advanced specialized learning. In the residential sector, the company's mark of excellence, innovativeness and resourcefulness can be seen in the form of Gulmohur Greens, spread across 23 acres, Gulmohur Gardens, spread across 15 acres, and Gulmohur Towers, spread across 7 acres — all landmarks in modern and international living standards. These luxury homes come with international standards of housing, an eye for security, sprawling parking spaces, multi-tier swimming pools, to name a few.

"We have already acquired the land banks in NCR region which will facilitate construction of more than 3100 apartments, providing 50 lakh sqft of residential space and 2 malls providing 7 lakh square feet of commercial space by 2010.", said Mr. V. K. Jindal.

The future projects planned are Gulmohur Residency, a project providing 300 Service Apartments in Indirapuram, Gulmohur Woods a residential project providing 1000 flats in Greater Noida and its 300 bedded multi specialty hospital at Faridabad. These projects would result in additional 2000 apartments, providing 32 lakh sqft of residential and 10 lakh sqft of commercial space to be delivered by 2011.

Committed to a corporate philosophy of excellence in service and value, the SVP Group is all poised to make the country's future a golden one. Their core belief revolves around building relationships and fulfilling expectations by always being the first in the market to provide the best of everything. And predictable, it won't be long before the whole of India sees a new revolution in real estate, thanks to the endeavors of the group.

Mr. V.K. Jindal

Chairman & Managing Director,
SVP Group
