

Automobile, Computer Science, Information Technology, etc., are currently being offered by this department alone! The university's Faculty of Medicine and Health Sciences too is not far behind in this race, inviting students to choose from a long, enticing list of medical programs, which include general Medicine, Dentistry, Pharmacy, Nursing, Physiotherapy, etc. Similarly, the proposed M.Tech course in Database Technology, and the coveted B.Tech in Genetic Engineering, are a couple of other rare courses.

The quantity of courses aside, the quality of education imparted by the SRM University can be easily compared with the best in the world! Supremely qualified, well-trained professors both domestic and foreign - employ novel learning methodologies to tutor the students of the university.

Besides academics, extra-curricular activities such as arts, crafts, and sports also receive a lot of emphasis, as they contribute towards all-round development of the individual. The SRM university encourages its students to participate in inter-collegiate cultural festivals and sports tournaments. The large number of prizes won by the SRM students in such events stand testimony to their talent.

However, in the process of moulding a student and preparing him/her to face the challenges that life poses, an educational institution

**“An in-campus IT Park is under construction, which when completed will make sure that lucrative jobs knock at the doors of the students, much before they go hunting for one! besides common employers such as CTS, TCS, Infosys, Wipro, HCL, Mahindra & Mahindra, ESSAR, L & T, Ford Motors, etc.”**

should not lose sight of the student's personal comfort. Towards this end, the SRM University provides its students with luxurious hostels (separate for gents and ladies) nestled in the lap of nature, and hygienic food. Solar water heaters installed in the hostels and elevators make sure that students have no cause for complaints. Another notable feature is that drinking water made available to students anywhere in the campus, is clean, mineral water! While the in-house supermarket serves their routine needs, the SRM Hospital is always open to attend to their specific medical needs. A 3-star hotel is also available within the campus, so that students can take a break from their daily drills and experience an extravagant life style! The in-campus Gymnasium keeps them physically fit, and the prayer hall and temple soothe their soul. And what's more...SRMites have their very own fortnightly magazine called the 'Spectrum', which keeps them informed about what's happening across the SRM campuses. The hostels are all Wi-fi enabled, providing students with anytime, anywhere access to information.

When a university provides such world-class facilities to its students, what more incentive would they need to perform better! Scholarships? The SRM University provides merit-based scholarships and fee-concessions to students with the fire to achieve great heights, but do not have the means to do so. Scholarships to the tune of Rs. 5.13 crores have been granted during the current year alone. Scholarships are also given to those who excel in sports and culture. The scholarship students apart from the fee concession are given stipend of Rs. 1,000 a month. The university goes out of its way to arrange educational loans for the needy students, this year alone it has arranged 72 crores through 8 banks. The loans are arranged on the spot during counselling sessions.

Alumni club is a pride of SRM University. Over ten thousand strong alumni students spread all over the world in a high-flying career are now looking back to SRM with nostalgic memories. They are now contributing in many ways to the university which has nurtured them.
