

Universal Access Number (UAN)

Whatever your business needs,
we have a solution.

We at BSNL understand that a growing business needs support. Every step of the way. And that's why we have unique telecom solutions that enable you to carry on your business without any pause.

Free Phone Service and Universal Access Number -
You can offer your customers a unique number, no matter where you are.

UPN - Stay in touch with your customers, anywhere in India through BSNL mobile or landline, without revealing your own phone number.

CUG - Stay in touch within your own group, with unlimited free calls.

V-SAT - Flexible, low cost and high speed broadband connectivity with satellite terminal for Wide Area Network (WAN) & internet access.

MPLS-VPN - It guarantees the quality of service, security and bandwidth on demand. Also, reduces customer network complexity and cost.

Broadband VPN - It is an add on service having both internet and VPN connectivity.
