

Fifty Years of Professional Excellence

When you have the compatibility, credentials and aspiration the opportunities are amazing. For you to succeed it is very important that you choose an organization that understands your expectation and offers a comprehensive education package and at Thiagarajar College of Engineering, Madurai they have been doing just that for the past 50 years. Founded by late Sri Karumuttu Thiagarajan Chettiar, this philanthropic institution is accredited by the All India Council for Technical Education and affiliated to Anna University. The college has scaled new heights under the dynamic chairmanship of Dr.(Mrs) Radha Thiagarajan (former Vice-Chancellor of Alagappa University) and Mr.Karumuttu T.Kannan who is the vice chairman and Correspondent. The college became autonomous in the year 1987 and has on its Board members from reputed Academia

"In order to synergise the academic and research efforts, each department has chosen a theme area such as Knowledge Engineering, Wireless Technologies, Automation, Power System and Energy, Eco-friendly structures, Heritage, Modelling and Simulation and Material Science."

Dr. V. Abhaikumar, Principal

and Industries representing different disciplines. Thiagarajar College of Engineering offers under graduate, post graduate and doctoral programmes and the entire curriculum is based on concept mapping. There are many choices in Engineering, Science and Architecture disciplines. There are approved guides in all the departments to assist in various research studies.

Faculty

With over 235 well qualified staff who enjoy every moment of teaching, the College campus life can only get better and exciting. Many of the faculty have gone on exchange programmes to universities such as Minnesota, Cornell, Iowa, Illinois (UC), Toronto and Purdue. A pioneering effort in the field of power systems by a distinguished professor from the College led to the evolution of "Nagappan Function". Currently few faculty members are engaged in their post doctoral work with MIT (USA), Stanford University, Penn State University, University of Nottingham, and Nanyang Tech University. To enhance and update current trend in teaching methodology gain first hand knowledge on research, the faculty members take up industry internship with Honeywell, National Instruments, Intel, Amada Soft, IBM and TCS. Reviews and technical papers of the faculty are periodically published in prominent journals.

Research and Development

Each of the department has a theme area such as Knowledge Engineering, Wireless Technologies, Automation, Power System and Energy, Eco-friendly Structures, Heritage, Modeling and Simulation and Material Science.

The College has established Thiagarajar Advanced Research Centre (TARC) to promote sponsored research in cutting
