

edge technologies. The college has got Centers of Excellence /Advanced research in the areas of Wireless technologies, evolutionary computing, automotive research and Information Management. The college was part of the National Network on Disaster Management (NNDM). The Government of India has sanctioned a major Research & Development grant for TIFAC-CORE in Wireless Technologies under Mission REACH Programme. The College is part of the consortium of Institutions in India and Europe to carry out a project in the area of Robotics and Telematics under the auspices of European Union. The Institute has been carrying out Research and Development projects funded by Defense Research and Development Organizations, Indian Space Research Organization, Baba Atomic Research Centre, Department of Science and Technology and All India Council for Technical Education

Training, Placement and extension activities

Nearly 100% of the students get placed through the training and placement cell at The Thiagarajar College of Engineering which is one of its strong pillars. There are frequent guest lectures by experts from industries and higher learning institutions who have wide experience in industry, academics and consultancy. The students takeup internship with multi national companies like Sun-Micro systems, Microsoft, Chrysler, Intel, Siemens, Motorola and Amada Soft to name a few that ensures speedy placement once the student completes the course. The College collaborates with local NGO'S and also supports the rural Innovators. The College is preparing a detailed Project Report on Heritage and sewage plan for the city of Madurai under JnNURM scheme. The college has been awarded a PATENT for the innovation on Polymer Bitumen mix roads. The college campus is self sufficient with indoor and outdoor sports facilities, cultural clubs, technology based social work groups, NCC, career guidance and counseling cells.

Alumni

The college Alumni associations are located in USA, Dubai, Singapore and many cities in India. The Alumni Association has distinguished personalities as members who have contributed

to the well being of our country by serving in the Govt. Defense and Space Labs. Many others have gone on to become successful entrepreneurs all over the world.

Awards

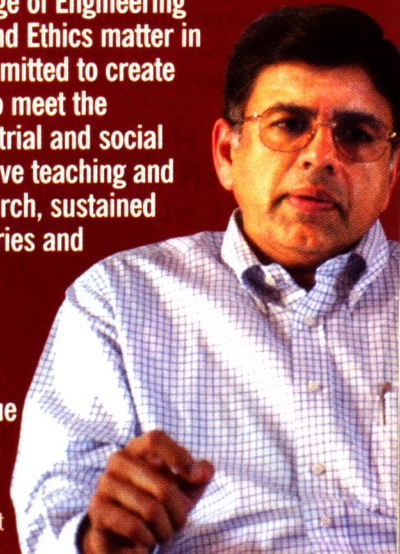

Students actively participate and win prizes in National and International, curricular and co-curricular contests organized by companies like IBM, Intel, Motorola, Honeywell, National Instruments and organizations like IEEE, IE, SAE, CSI, ACCE, CII... The awards won by faculty members include BOYSCAST, TIFAC Fellowship and Career Award for Young teachers, and Best Teacher awards.

The Civil Engineering, Electrical & Electronics Engineering, Electronics and Communication Engineering, Computer Science & Engineering and Physics departments have been recognized as FIST supported departments by the Department of Science and Technology, Government of India. The college has ISO 9001:2000 quality certification for carrying out curricular, Co and Extra curricular, Research and Development, Industry Interaction activities for Engineering and Technology courses. This institute is part of the initiative of TATA Consultancy services to institutionalize

Thiagarajar College of Engineering believes that Quality and Ethics matter in education. We are committed to create quality professionals to meet the emerging global, industrial and social needs through innovative teaching and learning, applied research, sustained interaction with industries and placing faith in human values. Our vision is to facilitate students to become innovators, entrepreneurs and value based technocrats
