

Flip a system crash...

Our Leaptops™ come equipped with the latest EC2 technology, which ensures recovery from a system crash in less than 60 seconds. And with voice enabled features, integrated video camera and high-speed Bluetooth connectivity, a Leaptop™ takes care of all your hardware and software needs.

Since we pioneered computer technology in India, it's not surprising to see products like these emerge from our stable. High performance computers, a range of business servers, PCs that work on car batteries and crash-proof Leaptops™, all stem from over 30 years of experience. And these are all backed by the widest support infrastructure in India.

So if you're looking for a computing solution that's hard to beat, look no further.

TECHNOLOGY
that touches lives™
