

HP recommends Windows Vista® Business.

Protect.
Manage.

ENJOY ENDLESS SPACE WITH A “ZERO FOOTPRINT” CPU.

BUSINESS
IS PERSONAL.

You'll be surprised how spacious the office will look with the HP Compaq dc7800 Ultra-slim Desktop PCs. Powered by the Intel® Core™2 Duo Processor with vPro™ technology, they are 46 percent smaller than previous models and feature a sleek “Zero Footprint” chassis that can even be mounted under a desk or on a wall with HP Quick Release* to save room.

The other thing they save is energy. The HP Compaq dc7800 Ultra-slim Desktop PC is up to 15 percent* more energy efficient than conventional PCs which means you get to cut down on overheads and your carbon footprint at the same time. Best of all, with out-of-band manageability, your IT staff will be able to control everyone's computers remotely even when they're off, leaving them lots of time to stretch out and enjoy their newly discovered workspace.

- Available in three form factors: Ultra-slim Desktop PC, Convertible Minitower and Small Form Factor
- Maximum security, manageability and stability
- Standard dual-display support
- Latest Intel® Q35 chipset

*HP Quick Release is available as a standalone accessory or included with the performance class monitors or integrated Work Center stand. *Savings calculations based on PCMark 05 benchmark testing results. Internal testing; customer results will vary. Variables include customer determined percentage of sleep state, idle state, productivity state and peak usage state. Also, manufacturing variability will affect the savings a customer may see. HP advises customers to test a system with an 80 percent efficient power supply in their environment to determine potential savings. Certain Windows Vista product features require advanced or additional hardware. See www.microsoft.com/windowsvista/getready/hardwarereqs.aspx and www.microsoft.com/windowsvista/getready/capable.aspx for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor.
