

Give us a Girl, Take home a Lady

Creating the best a woman can be....

Today's liberated girls are savvy enough to identify their own strengths and drawbacks. A plethora of skills they have always wanted to master, but never knew who to ask. The Good Shepherd Finishing School is the answer to all those young ladies who aspire to be the best women can be.

When a young lady steps out of school or college, often she discovers that her education has not entirely prepared her for the finer points of home making or relationship management. The Good Shepherd Finishing School curriculum is aimed at helping women of today overcome these hurdles and emerge, fully equipped to take on the world with elegance and élan.

Mrs. Elsamma Thomas, Principal, Good Shepherd Finishing School, says, "The response and curiosity that the Good Shepherd Finishing School has evoked is evidence to the awakening of a need in young women to acquire the skills and the graces that are vitally important to cope at home, the world and in real-life scenarios."

Admissions are open from the month of March and are confirmed after a personal interview with the candidate.
