Ranjani Ranganath

51, GM, Technology, India, ANZ Bank

She started out as a banker, worked as a law accountant in the UK and then came face-to-face with Mosaic, the world's first public graphical web browser. It was an encounter that saw the 51-year-old Ranjani Ranganath leaving the world of banking and instead, jumping feet first into the world of information technology. It was at Cisco Systems that she was appointed managing director of the Global Development Centre and also formed the company's first IT global team as the theatre relationship executive. Now she is getting ready to work for the Australia & New Zealand Banking Group Limited (ANZ) in Bangalore where she will be posted as general manager, technology, India. At ANZ, says the mother of two, "The scale complexity, the excitement and the size of the challenge will be very different. But first, there is going to be a lot of learning."
