

BOSE®

The Bose® Wave® Music System

Acclaimed
Bose® sound.

Now available
with an optional
Multi-CD
Changer.

Shown with optional Multi-CD changer

The premium sound sets a new standard for what you can expect from an all-in-one system that fits on a counter top. And now, our Multi-CD Changer lets you enjoy your music for hours on end.

Hear the difference.

The secret is hidden inside: our award-winning acoustic waveguide speaker technology, which

delivers rich, full sound from a small enclosure.

Press, Play & Enjoy. Listen to your favorite CD, MP3 on CD or AM / FM radio station on the Wave® Music System. You'll hear it reproduce lower musical notes giving instruments like kettle drums and bass guitar a more natural presence.

Complete ease of use. With the Wave® Music System, enjoying premium sound could not be easier. Just plug it in. It has a clock, an alarm and many other features - all simple to use. You don't even have to adjust any confusing

buttons or dials in the pursuit of tonal balance - that's handled automatically for you. You can also easily connect the Wave® Music System to your TV, MP3 player or computer and enjoy Bose sound with everything you listen to or watch.

A convenient Multi-CD changer. Designed exclusively for the Wave® Music System, our optional Multi-CD changer lets you enjoy hours of uninterrupted music. And every feature is easily controlled with the credit card-style remote.
