Director-Academics

■ Delhi Business School

One Institute which has emerged favorite among MBA aspirants, is Delhi Business School (DBS) situated in Mohan Co-operative Industrial Estate, Mathura Road, New Delhi. By offering courses tailor-made to the needs of industry, Delhi Business School ensures that all its graduates are readily absorbed in the fast-growing sectors of the economy. **THE DEGREE**, DBS offers both MBA and BBA degrees from UGC recognized university. It also offers Post Graduate Programs (PGP) and Short Term Management Development Programs (MDP). The MDPs are aimed at enhancing and updating the skills of middle-level management professionals. **THE COURSE**. In order to make its courses relevant to the needs of those sectors of the economy that offer maximum opportunity for employment, the institution offers dual specialization. Student select one specialization each from group A and group B. While group A includes core management discipline such as marketing, finance, Information & Technology, and Human Resource Management, group B includes specialization such as

International Business Management, Retail Management, Infrastructure & Real Estate Management, Fashion Marketing & Merchandising, Insurance & Risk Management, Healthcare Management, Telecom Management, Biotechnology and Travel & Tourism. At DBS, classroom learning is supplemented with hands-on industry experience. Students undertake a two-month summer training at the end of first year. In addition, they also get to work on several industrial projects spearheaded by faculty members. In second year, they get to do more industry-integrated training. In addition, the Corporate Resource Center promotes regular interaction with the Industrial and Corporate World by organizing regular seminars and conferences. **THE FACULTY**. The institute has a rich core faculty. It supplements this with visiting faculty from the Corporate World who are able to combine theoretical principles with real life insights.

CAMPUS PLACEMENT. During placement week, a large number of reputed corporates flock to the campus. DBS's close-knit network of highly-placed alumni also ensures that its students get attractive job offers.

STRONG INFRASTRUCTURE. The entire building is air-conditioned and campus wi-fi enabled. Well equipped computer labs and library rich with the latest management books and journals allow students to pursue their learning unencumbered by infrastructure constraints. All students are provided with laptop at the beginning of the course. A rooftop cafeteria, multi-media senate rooms and hostels for boys and girls are some of the other facilities here. **FOREIGN LANGUAGES**. Top-ranked managers frequently travel and sometimes even live abroad. DBS, therefore, provides its students with the opportunity to pursue diplomas in languages such as Arabic, Chinese, French, German, Korean and Spanish. Though numerous institutes promising good management education and assured placement have mushroomed in Delhi, only a few live up to their promise. Delhi Business School is one institute that under-promises but over-delivers.

■ FIMT "We Challenge You to Change Your WORLD"

With an expertise of 32 years in teaching and training the 'FAIRFIELD INSTITUTE OF MANAGEMENT & TECHNOLOGY (FIMT)' was established by the Fairfield Group of Institutions at New Delhi.
