

ASUS P320 Mini Stylish PDA Phone brings you to the fashion forefront

The ASUS P320 Mini Stylish PDA phone is designed for the fashion-conscious who are constantly admired for their accessories. Small and slender in form, smooth curves and rounded corners define this miniature beauty. Daily schedules, weather, email status, to-do-list, music broadcasts or the latest RSS newsfeeds can be easily accessed in one place with the exclusive ASUS Today. Weighing only 105 grams, the P320 processes documents, receives and sends mails, supports MSN chat and Internet surfing. Operating on Microsoft Windows® Mobile 6.1™ Professional platform and packed full with features such as Bluetooth, USB, EDGE/GPRS and WiFi for Internet access from anywhere, the P320 is your best fashion accessory that brings you from work to play!

ASUS M930 Making Waves_{with Style} and Connectivity

ASUS M930 offers two fast and easy input options for the businessman on-the-go: numeric when closed and full QWERTY when open. It also gives you total connectivity with support for GPRS, EDGE, WCDMA, HSDPA, Bluetooth 2.0, Wi-Fi and USB 2.0. The M930 converts into a 3.5G modem with its one-step Quick Modem Setting in areas without Wi-Fi coverage. It has 3.5G high speed data transfers, which enable faster downloads for bigger files including videos and MP3s on-the-go and is integrated with the Windows Mobile 6 Standard operating system. It also features ActiveSync with which easy transfers of data from the smart phone to a server can be established. The ASUS M930 also opens up into a multimedia center complete with an ultra-wide screen and embedded webcam for wider, clearer views.
