CLEAN ON THE INSIDE

Mud, gravel, snow, ice, rocks. And that's just the start. The real challenge for a world championship rally car isn't what's on the outside, that's a given. It's only if you cut the car in half do you appreciate the one component that keeps the engine clean, where it matters. Shell Helix Ultra with active cleansing technology, keeps the engine performing as it should – at it's peak. www.shell.com/helix
