HOW IT WORKS

Rate all the parameters given for each nomination on a scale of 1 to 5, where 5 is the highest and 1 the lowest. For example: In Hotels, all 5 parameters – Hygiene, Service, Décor, Facilities and Location – must be rated on a scale of 1 to 5, where some or all parameters can be rated the same or differently. Leave a blank space wherever you have not personally experienced a nomination, or one of its parameters.
