

"THE BIGGEST ENEMY OF GREAT IS GOOD."

Deep Kalra. Founder and CEO, Makemytrip.com

A good business follows the rules. A great one rewrites them. That's how we created a thriving online business that revolutionised the travel industry. And it's no different from how HP designed our newest printer. The HP OfficeJet pro represents a quantum leap in printing. It saves 30% on printing costs compared to a laser, with output quality and speeds that are just as impressive. To us, that's not just great - that's awesome.

The advertisement features a man, Deep Kalra, sitting on a ledge next to a swimming pool. In the foreground, an HP OfficeJet pro L7580 printer is shown printing several documents and photos. The printer is a large, black, multi-functional device with a control panel on the front. The documents being printed include a travel brochure with a plane, a document with a red and white design, and a photo of a sunset. The background shows a modern building and a swimming pool with a lounge chair.
