

With foreign money and sentiment driving the Indian market, the Sensex is only a short distance away from the bubble zone. As China and the US show signs of slowing, India is bound to be affected.

FAST, FOREIGN AND FURIOUS

Rs 64,000 cr is the value of FII inflows in 2007

Till June, Rs 22,400 cr came in the form of private equity investments

Sensex price-earnings ratio has zoomed from 18 to 22 for 2007-08

The total number of demat accounts is over 1 crore

Figures in black boxes denote FII inflows.
Those in red are Sensex values rounded off to the nearest digit.
