

computer designed bike in the country, Hero Buzz. Today, Hero has 100 models of cycles in various categories. In the roadster category it has 20 models including Hero Jet and Royal. The kids segment has over 19 models including the latest Stylin, Pink Ice, Trojan, Angels, Trix, Stunner, GPS, There are separate models for girls and men, each a product of Advanced Value Engineering.

Product innovation however isn't the only trait that has kept Hero leaps and bounds ahead of the rest. Hero's unrelenting Zero-defect approach that has driven it to upgrade its manufacturing systems continuously and earned it the ISO-9001, ISO-9902 and BVQI certifications apart from the ISO 14001 environmental compliance endorsement for its management systems.

LEADERSHIP BY INNOVATION

At a time when cycles meant black cycles only Hero foresaw that varied tastes from across the society meant varied needs. Subsequently, the company introduced new models and changed the existing perception about cycles. The 'Ranger', India's first All-terrain-bike become an instant and a raging success.

The innovation kept following one after another with the first international city bike Hero Neon and the first computer designed bike in the country, Hero Buzz. Today Hero has 100 models of cycles in various categories. A few popular ones like Razorback, Street-Racer, Cyclone, X-Sport, Ranger DTB, Swing, Escape, Hawk and Hi-End models in alloy like Octane NV have a large demand. In alloy like Octane DTB1&2, Octane NV have a large demand. In the roadster category it has numerous models including largest selling Hero Jet and Royal. The kids segment has a wide range of models including latest Sundancer, Swirl, Blaze, Wizard, Trojan, Trac Tech & Brat.

Product innovation however is not the only trait that has kept Hero leaps and bounds ahead of the rest. The

Back in 1956, a company was born in Ludhiana, and little did the nation know then, that it was the beginning of the golden era, a revolution that would bring to the fore, India's most economic mode of transportation. From a small company which started with manufacturing 25 cycles a day today's world's largest producer of bicycles

management practices of Hero further complement the pursuit of perfection. The 'just-in-time' approach adopted by Hero has hugely boosted the operational efficiency. Not to miss Hero's unrelenting Zero-defect approach that has driven it to upgrade its operating systems continuously and earned the ISO 9001 certification apart from the SA 8000 certification for social compliance and the ISO14001 environmental compliance endorsement for its management systems.

THE WINNING TEAM

Another remarkable thing in this eventful journey of Munjal brothers is the strong bond of trust that has been there since inception of the company. The bond that's bound one to another, be it workers, vendors, dealers or the management. Unquestionably, this strong rapport is the result of what Hero has to offer to all those who choose to work within its fold. "Behind the success of Hero Group, is the saga of teamwork. It is this spirit of teamwork that gives the courage to counter any problem and makes the impossible, possible." Asserts Brijmohan Lall Munjal.

It's no wonder, with its unparalleled quest for perfection and the spirit and grit of each of its employees, Hero Cycles is today the world's largest manufacturer of cycles, a title that it has retained since 1986. "It's a mammoth feat to retain market leadership for over two decades" says Suresh Munjal, marketing and sales Head.

Today, Hero has millions of satisfied customers around the globe. It commands the biggest market share in Indian bicycle industry, besides also being the largest exporter of cycles. "Today Hero has a strong presence in as many as 53 countries, including discerning markets like US, UK, Germany, Spain and other European nations." s.

Hero has always believed in meeting the aspirations of a nation on the move and is now all set to launch the bikes of the future.
