

On your forehead it means absolute faith.

Sprinkled on you, it is a mother's blessing.

At your feet it is a sign of respect.

It's never just a grain of rice.

Every grain of rice means a lot to you. And so is no wonder why we make every grain of Daawat Basmati with extreme love and care.

DAAWAT
BASMATI RICE
Hare dars, hare pyar se banai

Mission of LT Overseas

To deliver substantial value to customers, be profitable and establish leadership in core markets. The company strives towards diversification and to broad-base the product portfolio. To command top of the mind recall with the consumer by ensuring effective brand promotion strategies. Invest in research and development activities so that the company can deliver ever better products and always take a lead ahead. Focus on increasing global footprint by venturing into newer markets and at the same time forge fruitful alliances with entities operating within the same plane.

customers base all over the globe.

LT Overseas Ltd. is among a select set of rice manufacturing companies who use silos for storage of rice. The processes are fully mechanised at every stage - thus ensuring an output that's untouched by hand. There's a strong emphasis on increased investment in the spheres of technology and process development that are comparable to standards followed anywhere in the world. And they were amongst few companies to be awarded Hazard Analysis and Critical Control Point (HACCP) Certification from British Standard Institute.

The company uses latest available methodologies and software in order to monitor the quality of input as well as output. Alliances have been formalised with technology providers who will give them exclusive rights to use specialised milling techniques for processing value added rice. This would greatly enhance the company's stance as a leading player in the rice processing sector, and give them additional edge to offer their customers a better product, domestically as well as internationally.

LT Overseas Ltd. has exhibited a steady growth curve for the last three fiscals. Effective operations and leaner processes have made it possible to place the company in an excellent state of affairs. The support of all departments such procurement, manufacturing, distribution and others has clearly brought them to the fore yet again.

A custom of setting standards

LT Overseas Ltd. attaches utmost importance to research and development and achieving advanced production techniques that are comparable anywhere in the world. This effort has resulted in a Consulting Agreement with Mr. Kaizar Colombowala, who has worked in close association with Dr. C. Judson King, who is considered to be the pioneer of freeze drying of foods technology.

The ritual of achieving

Since the year 1990, LT Overseas Ltd. has believed in delivering the best. And the endeavours have always been met with numerous recognitions and awards. A consistent streak of prized metal has whetted the company's appetite for more. And they stand as a testimony to the fact that the ongoing efforts will only be intensified in the future. New standards will be aimed at. And the bars will be set higher.

Daawat inaugurated ultra modern rice food plant at Mandideep, Bhopal on 29th October 2007. The plant is endowed with latest know how and automated technology ensuring consistent quality and the highest yield thus making a win-win situation for farmers, stakeholders, agribusiness and LT Overseas. This project will ensure prosperity for people the of Madhya Pradesh.
