

Mona Liza

Just one
fake part
can
seriously
damage
a masterpiece

Mercedes-Benz

Some imitations are easier to spot than others. For the others, you have to look a little deeper. A fake part, palmed off as an original will only end up harming your car. An original Mercedes-Benz part will always bear the trademark 3-pointed star in a ring which appears on it along with a hologram. And the only source for genuine spare parts is a Mercedes-Benz dealer, who is trained to treat your

vehicle with care and respect. **Buy genuine spare parts from an authorized Mercedes-Benz Dealer.**

When you see this packaging in combination with the intact hologram, anywhere in the world, you can be sure there's a Mercedes-Benz Genuine Part inside. It is recognisable by the worldwide uniform design and protected by a hologram seal.

Note: If duplicate parts are used, the worldwide Mercedes-Benz guarantee, does not apply.
