

*Presence in 92 countries doesn't make a company global.
Its attitude does.*

We believe that the pursuit of excellence is part and parcel of a global entity. This is why we have joined hands with world leader Hosokawa Yoko, Japan to present a remarkable packaging solution like SIP.

The revolutionary Zipper & Slider action Tamper Evident packaging-Z-Step, WPP bags and 3-D pouches are some more examples of our drive.

In UAE our Polyester film plant is certified with ISO 9001:2000 for Quality Management Systems. The 110 million US\$ green field project at Mexico for Flexible Plastic Film is designed to be another landmark. Evidently it's the drive and the attitude that counts.
