

**Our machines are as powerful as ever.
Now they are even more Environmentally friendly.**

JCB machines are ready to meet Bharat Stage II Emission Standards. As the leader in construction equipment, JCB is way ahead when it comes to protecting and preserving the environment. We actively undertake greening drives the world over. We are also committed to recycling, and our manufacturing units are friendly to the environment. After all, mother nature needs to be treated with the respect she deserves.

Together we can make a difference
