

A designer label you wouldn't want to be seen with. Unless you're an exhibitionist.

It's the designer label for your private moments. The 'Happening' bath suite, by Ramon Benedito for Roca, is an embodiment of precision and evolved design. Ramon Benedito is an industrial designer par excellence and a founder-member of several elite design communities worldwide. His non-conformist design philosophy has won him praise and recognition. With 'Happening', he creates drama in porcelain using geometrical lines and shapes.

Roca is the world's largest sanitaryware brand and Spain's most widely recognised brand amongst elite designer labels.
