

**Government of
Madhya Pradesh**

New Thrust in Industrial Development

Madhya Pradesh has witnessed in the last four years unfolding of a promise that everyone belongs, that everyone deserves a chance to and in-the development process. In the quiet of their conscience, even the worst critics now realize that the development dream is being actualized with much greater commitment. This has been a time of dramatic transformation when through last four budgets record deficits were turned to record surpluses. An age of state renewal when government affirmed a new commitment to live

out the promise, live up to the calling, of correcting the economic and infrastructural ills suffered over last decade. A sincere homework of last 4 years proved that Government can and must provide an opportunity, not smother it, foster productivity, not stifle it. Now armed with a reworked policy regime and a healthy, vigorous, revived economy; the Government is well set to invite the commercial community to take greater part in the endeavor and adventure that Madhya Pradesh is.

As the government set about getting the requisite infrastructure in place, it never lost sight of the industrial promotion, the key to economic development of the state. Thus as part of its reforms process the State Government declared Industrial Promotion Policy-2004, aiming at an investor friendly administration by simplifying rules and procedures. The State Government constituted Industry Advisory Council headed by Chief Minister, Ministers and Principal Secretaries of related departments as the members of the council. State Government also nominated some big industrialists, economists, technocrats and industrial associations, to the council. The State Government has set up the Project Clearance and Implementation Board (PCIB) under the chairmanship of the Chief Secretary for clearance of proposals. An apex level committee headed by the Chief Minister has also been constituted to sanction concession packages. The Trade and

Centre for Monitoring Indian Economy in its Monthly Report of May 2007 has stated "outstanding investment in Madhya Pradesh" stood at Rs. 1,46,812 crore, posting a significant growth of 59.54 per cent over the year ago level. Investment in construction escalated from Rs. 1,362 crore in March 2006 to Rs. 21,557 crore in March 2007. Mining (330.31 per cent), Manufacturing (6.64 per cent) and the service sector (68.54 per cent) also reported a considerable year-on-year rise in investment during the period.
