

PROTECTION MEETS POWER

THE NEW INDICA V2 TURBO.

NOW WITH ABS & AIRBAGS.

Now, every power drive comes with added safety. The Indica has always been known for its enviable safety record. It has been tested according to European standards for full-frontal, offset-frontal and rear crash for passenger survivability and its rigid monocoque steel frame forms a protective shell. Now simply add all this, along with Dual Airbags (driver and passenger) and ABS (Anti-lock Braking System) and you now have a car that's potentially the safest one on Indian roads. We value your life and that of your family in every product that we design. However, we still urge you to drive safely, drive responsibly.

ANTI-SUBMARINE SEATS
SIDE-IMPACT BEAMS
FRONT CRUMPLE ZONE
COLLAPSIBLE STEERING COLUMN
ENERGY ABSORBING BUMPERS
ELR TYPE SEAT BELTS

ANTI-LOCK BRAKING SYSTEM
