

**Why spend time purifying water,
when you can spend it with your family?
Simplicity is a water purifier that liberates you.**

The Philips Intelligent Water Purifier works automatically. It senses the presence of water, purifies it, fills it to a pre-programmed level, and shuts itself off. It also has a rechargeable battery backup in case of power cuts. Which means you can trust it to always give you absolutely pure and safe drinking water, without being present.
