

Klimeo® microcapsules.
Temperature control.

Enjoy the feeling!

Comforta

Just landed after a long flight? You walk up to the terminal and suddenly a blast of cold air makes you shiver in your suit. It's not a problem with the Comforta range of suits. Enhanced with Klimeo® microcapsules, a natural temperature-regulating ingredient, these revolutionary suits are able to compensate for swings in the outside temperature. So stay comfortable wherever you go with Comforta suits.
