

FIRST TIME IN THE WORLD

CURE CATARACT & INCURABLE EYE DISEASES

BY

AYURVEDIC MEDICINES

Em. Prof. Dr. M.S. BASU (EYE SPECIALIST, Ayurvedic) (Inventor of Isotine Eye Drop)

Cataract is a world wide affecting the eye sight of people. 50 lakh people suffer blindness every year in India alone on account of cataract. Most of the Retinal diseases are main cause for the vision problems & blindness.

Eye Drop & Oral Medicine is the result of several years of Dr. Basu's research work. It is based on Ayurvedic Herbs and Bhasmas. After many clinical trials, it has since been registered, GMP, ISO 9001 : 2000 certified & CIMAP Tested, Patented by WTO Govt. of India. During the past 25 years, thousands of patients suffering from immature Cataract & other eye diseases like Myopia, Hyper Metropia, Diabetic Retinopathy, Color Blindness, Macular Degeneration, Glaucoma, Retinitis Pigmentosa etc. have been benefitted without operation. Thus, for the first time in the world, Eye Drop & Oral Medicine has proved useful for improving eye sight in the aforesaid eye diseases without operation. Many of these diseases are known to be incurable.

Many patients who have been refused treatment by well known eye centers like Retina specialist in Rome, (Italy) AIIMS, New Delhi, Sitapur Eye Hospital, Gandhi Eye Hospital Aligarh, Shankara Nethralaya, Chennai, K.G. Medical College, Lucknow etc. have been successfully treated with regard to above mentioned eye diseases. The improvement in vision is stable & without any side effect.

Eye Drop & Oral Medicine has also been found to be very effective in improving eye sight in post operation cases of Cataract, Lasic Laser. Spectacles of many patients have also been removed up to +8.5 Dsph.

The cost of one cataract operation is too high as compared to Ayurvedic treatment. Sight First Excellence and Effort Award by Lions International U.S.A. & several other awards have been given to Dr. Basu for his research which needs to be adopted and popularized at Government and private levels to

prevent blindness all over the world.

In complicated cases of Cataract, Glaucoma, Emblyopia, early stage of Squint, Optic

Atrophy, Proposes, loss of vision on account of

DR. M.S. BASU with President Mrs. Pratibha Patil

Computer & TV viewing very closely, heavy doses of antibiotics, steroids, snake bite, Solar Retinitis, electric/welding sparking, heavy doses of liquor, gas poisoning, crackers & poisonous colors etc. Dr. Basu has treated such patients successfully using eye drop & Ayurvedic, oral medicines at his Centre to cure Cataract, Retina & Eye **Carcinoma** without Operation, According to Pushpa Nature cure Cancer Research Center & Hospital (Govt. of India) Apollo Hospitals (Emergency Department) Green Road Chennai & Institute of Macro bio Chemistry International organization, Deem University New Delhi, Isotine eye drop have a very

good response in cancer patients. (The above said medicine has also G.M.P, ISO 9001 : 2000 Certified & W.T.O. Patent.) **On the basis of Dr. M. S. Basu 's research, his name proposed for Padam Shree Award by Local (Bareilly) Administration.**
