

POWER PLAY DOESN'T GET BIGGER THAN THIS

VISION: INDIA 2012 - ELECTRICITY FOR ALL

What took India fifty years to achieve, would now be accomplished in the next four years, doubling its electricity generation and supply capability. This revolution will trigger an unprecedented growth in the electrical sector, unlocking tremendous opportunities for all power players.

Explore a sample of this extraordinary phenomenon at ELECRAMA-2008. The biggest international exhibition of its kind in the world, ELECRAMA brings the entire electrical and allied industries under one roof, a convergence point for international and Indian companies to showcase their technology, expertise and knowledge.

If you are a power player, you will relish this big game. Register online at www.elecrama.com before 7 January 2008.
