PLAIN ITEM

Khallas girl **Isha Koppikar** might be recovering from her celebrity judge stint on *Nach Baliye 3*, but she seems all set for a new inning in Bollywood. Koppikar, 31, will trade in her glam avatar for a traditional garb and play a simple girl in Rajshree Productions' next *Ek Vivah Aisa Bhi*, co-starring Sonu Sood.

While Koppikar says the role will be a challenge and she's "honoured" to play the Barjatya bahu, let's see if her plain Jane looks go down well with audiences. Not as simple as it looks, eh?

HITTING MOOLAH

Looks like everything around cricketer **Yuvraj Singh** is smokin' hot. A bat used by him for T20 cricket has turned out to be India's hottest, most in-demand signature cricket bat. The 1,250 gm Yuvi 2020 was specially made for the lefty by batmakers Sareen Sports in Meerut. It has a blade that is an inch shorter than a regular bat, a handle an inch longer and it packs more weight in its 'meat'. The batsman hit the headlines when he used the long handle to pound six sixes at the World T20. Now it's the bat's turn.

Age Act

She famously starred with him in *Mehboob Ki Mehndi* and now yesteryear actress **Leena Chandravarkar** is all set to pair up with Rajesh Khanna for the television serial *Bhabhima*. And while the media-shy Chandravarkar refuses to confirm this, she did make her first television appearance as a guest judge on the music talent show *K for Kishore*, dedicated to her late husband Kishore Kumar. She says she is willing to consider acting offers if the banner is good and the role suits her age. K for comeback, anyone?

Shaking it Up

Nine years after she shot to fame with *Chhaiya chhaiya*, **Malaika Arora Khan** has signed her first full-fledged film role. After her blink-and-you-miss appearances in *Bichchoo* and *Kaante*, the pretty model-turned-actor will be seen with Arjun Rampal in Suniel Shetty's *EMI*, and we hear the Khan kitten is pretty nervous about making the histrionic switch. "The film required no more than 15 days of my time and we shot close to home," says Khan, who will also be seen shaking her booty in two songs. After all, that's what the lady does best.
