

KRBL Limited

LEADERSHIP BY INNOVATION

Today KRBL not only stands tallest in the global rice scene with the ability to process 43,000 containers containing about 900,000 MT of rice annually, but also has the capacity to store 600,000 MT of rice and paddy at any given time valued at over US \$ 300 million.

KRBL Limited is a 118 year old establishment positioned today as the World's Largest Basmati Rice Exporter and World's Largest Rice Miller gearing to an annual turnover of US \$ 300 million and an employee base of 3000 people. The company's flagship brand, India Gate Basmati rice, is India's largest selling Basmati rice for last 3 consecutive years and also happens to be the second largest brand in Middle East which is the largest consumer of Basmati in the world. India Gate enjoys the presence in over 33 countries and rapidly growing brand with the latest addition of India Gate Classic which is the Longest Basmati rice in the world.

Today India Gate rice is perceived as a brand leader in its category. The growth of this brand is fuelled by excellent relationship with main stream retail in India and our partner – distributor network around the world. Furthermore, due to 100% vertical integration, KRBL shares a deep rooted network and relationship with over 65,000 farmers which assists in promoting KRBL seeds and improved farm management services.

■ AN AMBITIOUS LAB TO LAND PROJECT

The company attributes its success to its ambitious table to land and land to

table projects with a 100% integrated value chain right from seed development to largest contract farming network to control to logistics and distribution.

At KRBL, innovation is a never ending process. It is the amongst the proud few to be actively associated with Indian Council of Agricultural Research (ICAR), Ministry of Agriculture, Government of India, and has participated in their continuous endeavor to understand and improve the Basmati attributes further. The company's focus with right scientific guidance resulted in it being the first to promote today's popular Basmati varieties such as Pusa and 1121 varieties. What is more, KRBL has on its own panel of eminent scholars and scientists furthering and widening the horizons of achieving excellence in Basmati.

■ GENESIS OF CLASSIC

"Classic" Variant of the India Gate Family is a product of agricultural scientists ongoing research to improve and precise current basmati attributes which were observed to have depreciated over the years. Through the natural process of selective transplantation, Classic promises to reinvigorate the basmati seed while promising the aroma, taste & length that existed centuries ago.

India Gate, India's largest selling Basmati brand enjoys presence in over 33 countries and rapidly growing. Latest addition of India Gate Classic is the Longest Basmati rice in the world.
