

The Light of Life

With rising disposable incomes matched by a spurt in lifestyle-induced illnesses, Indians spend more on wellness products and services. The increasing number of spas, wellness centers and beauty parlours is proof of this trend. Now you too can profit from this exciting market. With an investment of just Rs. 2 lakh you can start off a profitable **Blizz Detox Boutique**, offering range of wellness services using the Blizz Spectral Detox Cabin.

What is Blizz Spectral Detox Cabin

The Blizz Spectral Detox cabin is an apparatus which emits a specific wavelength of rays (**Far infra red rays 5.6 to 15 microns**) invisible to human eyes but beneficial to the human body a deep penetrating heat which is of the same resonant wavelength of the water molecules, it activates the water molecules present in the human blood (about 85% of human blood is water) increasing the blood flow and oxygen absorption rate, enriching the organs of the body, being the same wavelength emitted by a healthy human body.

Blizz Detox cabins produce the safe and beneficial far infra red rays, which can be fully absorbed by the **human body, for repair, rejuvenation and general wellness.**

Why Blizz Spectral Detox Cabins

In Blizz Spectral Detox cabins the deep penetrating radiant far infra red rays are emitted from all around the cabin, thus far more beneficial and uniform on all parts of the person inside the cabin, in fact no other cabin in the world has a far infrared radiant surface emitters all over its cabin due to its high cost, and limited technology, Blizz Spectral Detox cabins have used this patented technology developed by **Dr. R. Sundaravelu**, a leading surface chemistries scientist & researcher, and commercialized by **M/s Alchemy Biotech private limited, India** in which **Bennet Coleman & Co Ltd, The Times group** have a substantial shareholding.

Blizz Spectral Detox cabins use the best raw materials and come with a lifetime warranty, free replacement warranty for five years on all FIR gen parts, all of which are Made in India which is well known internationally for its durability and the value for money attribute.

A person pursuing any profession seeks respectability, financial success and above all dignity of labour. In this account, all profession and most businesses will not qualify to the expectations of many but still people do it to just make a living out of it or simply because they do not know anything better. Especially women when they wish to do something of their own the respectability part has been

"Blizz Detox is very good. Instant glow on face. Immediately relieved of my pain in the muscles and joints".

Mrs. Reena Shah, Chennai

lacking in India, particularly, making it difficult for a lot of persons with talent unable to proceed with any decent profession which, in turn, has limited the financial independence needed for women. In this context, a viable profession with dignity of labour has always been the need of the day. It is here that Blizz Detox Boutique in general, healthcare, hygiene management, beauty and wellness as profession scores high on respectability and social status of an enterprising individual.

Health benefits

A 30-minutes session in a Blizz Detox Cabin provides you much more health benefits than this column can probably accommodate. Below stated are a few of them:

► Increases Blood Circulation

► Sweat Therapy

Stimulates your sweat glands and enhances the eliminative cleaning process of your skin

► Reduced stress and fatigue

The soothing warmth of Blizz Detox will relax and loosen your tight, sore muscles. It is better than having a personal masseuse.

► Detoxify

The FIR energy penetrates up to 45 mm into the body and causes a resonance in the water molecules that surround our cells. This makes them move more freely in and out through the membrane of the cells

► Radiant youthful skin

Thanks to FIR energy's super cleansing effect. **Your skin's texture, complexion and tone will be improved to a noticeable degree within a few weeks.**
