Welcome to life beyond imagination, to a world where global living standards are present in their finest form. Located in Crossings Republik, India's first global city spread over 360 acres, Mahagun Mascot homes offer the great advantages of this city and then some more. They come with pleasures of their own like a floating garden, water bodies, amphitheatre, children's pool, yoga deck, water cascade, a drop off plaza, and for the fitness conscious there is an outdoor gym to work along with a jogging track and lots lots more. And of course, top-end 24x7 security.

You can choose to live in the twin **iconic Mahagun Mascot Star** towers or the relatively **low rise Mahagun Mascot Plus**.
