

STOP TALKING INNOVATION. START DOING IT.

WE HELP ORGANISATIONS AROUND THE WORLD ACTUALLY GET THINGS DONE.

On every continent, in practically every industry, IBM is helping businesses rethink the way the world works. From intelligent power networks and advanced water modelling to smart vaccines and green data centres, we are applying innovative thinking to help solve real-world problems.

START CONSERVING

IBM helps companies like CenterPoint Energy create intelligent utility networks that can help provide greater service reliability and promote energy efficiency.

START COLLABORATING

IBM helps implement systems that allow healthcare organisations to share critical medical information in real time, which can lead to better care for thousands of patients.

START SOLVING

IBM is helping cities around the world implement smart traffic systems that can actually help reduce gridlock.

START EXPLORING

IBM and National Geographic have teamed up on the Genographic Project – a five-year study using over 200,000 DNA samples to map how humankind has populated the globe and to uncover the genetic roots we all share.

START CONNECTING

IBM helped Staples create a better, more efficient web experience, increasing their online conversion rate by 60%.

START PROVIDING

IBM helps major insurance companies develop flexible operations so they can offer their clients personalised, dynamic services.

START STREAMLINING

IBM works with major automotive companies to create flexible new processes and systems that can help reduce operational costs.

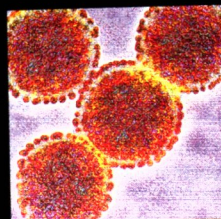

START GROWING

IBM's globally integrated delivery model helps companies rethink their business structures – allowing them to optimise resources, cut costs and expand into new markets.

START PROTOTYPING

IBM helped Clarion Malaysia develop a 3D design system that helps reduce manufacturing errors, cutting design cycle time by nearly 50%.

START ANTICIPATING

IBM and The Scripps Research Institute are using supercomputers to help determine which of the one billion possible mutations of the avian flu virus are the most infectious so that vaccines can be developed before outbreaks happen.

START EXCEEDING

IBM is helping banks reduce the time it takes to open an account from hours to minutes, making the overall customer experience faster and much more convenient.
