

Healthy tax savings

What this means is that you can save more tax simply by combining your investments in 80C and 80D instruments (see table for details). Of course, investing in just any health insurance plan simply for the tax benefit is not such a good idea. You should choose a health plan that covers you for various health-related needs. ICICI Prudential offers a wide selection of such plans.

Critical illness insurance. Crisis Cover is one of the most advanced long-term critical illnesses insurance plans available in the market today, covering the widest range of critical illness (35 critical illnesses) while providing protection against death and disability.

Hospital and surgical benefit plans. Hospital Care is a long-term hospitalisation and surgical benefit plan, covering a wide range of conditions and providing cover against all

- Daily hospitalisation cash benefit: A fixed daily benefit provided for every day you are in hospital
- Intensive care unit (ICU) benefit: An additional 50% of the above is provided if you are in an ICU
- Recuperating benefit: A post-hospitalisation benefit amount, in addition to all other amounts, will be paid to

cover the cost of follow-up tests, medicines and consultation, etc.

- **Surgery benefit:** In addition to the above hospitalisation expenses a fixed lump sum amount is paid for surgical procedures
